

ergonomic master

ergonomic master

- 4 desks with extra drawers
- 6 height regulation
- 8 computer desks
- 10 cabling
- 12 managerial desk, conference room
- 16 partitions
- 18 cabinets and bookcases

space always open

Optimal conditions for work provided by the arrangement of managerial cabinets help to organize work and form a constructional part of the desk.

Carefully thought out internal drawers provide set-up for a PC and easy assembly of cables. The installed drawer secured with a key lock shall be an ideal place for keeping personal belongings.

up and down

Implemented height regulation gives a possibility to adjust the desk to the height of the user providing maximum comfort at work and proper bodily posture.

Working for a long time at the desk can cause various diseases of the spinal column.

Due to proper setting of the height of the desk work becomes more comfortable, healthy and safe.

A3F04 X3 STORAGE, SUSPENSION FILE DRAWERS 801/432/1129

Organizing some space both over and under the table has a lot of advantages. Work becomes more pleasant and more effective.

Due to the implementation of proper accessories it is very easy to keep order.

Simple and stabile holder adjusted to bigger computer set up vertically, directly under the desk top provides easy access to the unit and greater freedom of movements.

partitions

screens and walls

Economical way of dividing space.

Upholstered, module partitions supported by metal posts coated with dry powder.

This solution allows to divide big spaces into individual work places.

The elements of the construction can be connected at the right angle.

Closed wall cupboards provide easy access to the documents at work.

The system of assembling accessories allows to use at maximum the surface of the partitions or the panels.
